2015	Midwest Economics Association, Minneapolis (USA)
Other	The Ohio State University, October 2013, 2014, 2015; University of Ioannina, September 2010

Departmental service

- Engagement Lead (University of Glasgow, February 2026-today)

  As the Engagement Lead for the Finance Subject, I am responsible for translating colleague feedback into constructive action. In this capacity, I contributed to the School-level selection process for the Colleague Excellence Awards and conducted individual interviews with colleagues to explore the findings of the latest Colleague Engagement Survey in greater depth. These discussions have yielded valuable qualitative evidence, which I am now synthesising into a report with recommendations for the Leadership Team, aimed at informing School policy and practice and supporting measurable improvements in colleague engagement.

- PGR Convenor-Finance-deputy (University of Glasgow, September 2024-today)

  As a PGR Convenor Finance Deputy, I play a key role in overseeing the academic support for postgraduate research students in the department. My responsibilities include monitoring student progress, and providing pastoral support. I have actively worked to enhance the PhD experience by organising and teaching a new section specifically for PhD students, which includes lectures in causal inference, covering the most advanced techniques recently introduced in the literature. My responsibilities also involve successfully organising the Annual Progress Reviews (APRs) to ensure students' academic progress remains on track and meets institutional standards. My role also involves fostering a strong research community, resolving supervision-related issues, and supporting students' academic and personal development.

- Wards Finance Seminar Organiser (University of Glasgow, September 2018 - June 2021)

  As the Finance Seminar Organiser, I was responsible for planning and managing a dynamic seminar series that enriched the research culture of the department. I organised a diverse lineup of speakers, including leading academics, to present cutting-edge research on various topics within finance. This involved identifying suitable speakers, extending invitations, and ensuring their seamless participation by managing all logistical aspects. I also facilitated communication within the department, promoting the seminars to maximise engagement from faculty, students, and external attendees. Additionally, I created opportunities for discussions and networking by organising pre- and post-seminar meetings. By gathering feedback after each session, I ensured continuous improvement of the seminar series. This role allowed me to contribute significantly to fostering a collaborative and intellectually stimulating environment within the department.

- Advisor for undergraduate students (University of Glasgow, September 2022 - 2024)

  As an advisor for undergraduate students, I guide and support them throughout their academic journey, beginning in their first year. I oversee their academic progress, assist with course selection, and ensure they meet the requirements of their degree programs. I help students set and achieve their academic goals, offering advice on managing workloads, overcoming challenges, and balancing their studies with other commitments. My role is centered on fostering their academic success and personal development, helping them make informed decisions and reach their full potential.

Teaching

⋆ PGCert in Academic Practice (PGCAP) (since 09/2019)

⋆ Recognising Excellence in Teaching (RET) fellow, University of Glasgow (since 09/2019)
